

Carbon Monoxide Alarms required in residential properties

The law requires homeowners and owners of rental property to install carbon monoxide alarmss near the bedrooms (or other room lawfully used for sleeping purposes) in every home that is heated with fossil fuel, has a fuel-fired appliance, has a fireplace, or has an attached garage. This requirement applies to every home that is sold, remodeled, repaired, or leased to a new tenant after July 1, 2009. For the complete information on the law. [Click here.](#)
